

EMERGENCY SHIPMENT CONSISTING OF 5 RAPS

EMERGENCY SHIPMENTS CONSISTING OF HIGH VALUE, TEMPERATURE-SENSITIVE PRODUCTS REQUIRES EXTRA ATTENTION AND THE ABILITY TO EXECUTE

CLIENT BASE

Ratiopharm is one of the leading international producers of high quality, generic medicines.

SITUATION

Ratiopharm had a large emergency shipment consisting of 5 RAP Envirotainers. This shipment had high-visibility with Ratiopharm and the manufacturer. The two companies needed a fully documented and controlled process in order to move the product quickly from Dusseldorf, Germany (DUS) into Montréal, Canada (YUL).

OUTCOME

LifeConEx was able to assemble an emergency procedure before the shipment moved. This allowed for a smooth process and management of the shipment with a 3 day turnaround. Despite the size of the shipment, LifeConEx was able to secure capacity on an Air France flight.

“LifeConEx was able to meet the customer’s timeline, delivering on time with no temperature deviations.”
